

**Coordination
Committee
Meeting
04/07**

Agenda:

- River at a Glance report
- Task group Discussion

Meeting 27/06: Takeaway points Cont...

- Update stakeholders list by Monday, 01 July 2024
- Website development:
 - page source of website is freely available from cganga.org website and using Wordpress the website can be replicated
 - cGanga can take responsibility of website development and one person from each institute can contribute to the team.
- Schedule a task group meeting for coming week.
- Complete the pending editions of Pragyambu.

Points of Discussion

1. Contents and modifications of River at a Glance report.
2. Update Stakeholders list
3. Translation of Pragyambu newsletter
4. Discussion of Report Template
5. Discussion of logo for centres
6. Discussion of Website for centres (acquiring domains)

Points of Discussion Cont...

7. Task Group Discussions:

- DEM (resolution 5m or finer).
- Satellite images to be used for LULC of reference and present condition.
- Tracing/generation of lower order rivers.
- Tracing/generation of rivers at places with thick vegetation cover.
- Accuracy of DEM at places with thick vegetation cover.
- Cross section data if unavailable from government agencies.
- Hydrologic model to be used.

Takeaway points

- Modify reports based on content matrix shared and share draft possibly by Tuesday, 09 July 2024.
- Incorporate more infographics in report rather than texts, and try to confine report within 50 pages.
- Prepare similar content matrix for Pragyambu, stakeholders and all tasks.
- Centres are requested to select a state coordinator from stakeholders list.
- Input for logo design and domain for website.
- Also share nominee from institutes for website development.
- Initial task group meeting scheduled for Monday afternoon session.
